

JAVAY PORTER

porter.javay@gmail.com | 202-590-9878 | Lanham, MD 20706

Summary

Ambitious Junior Software Engineer with experience contributing to design, development and optimization of React applications. Bring intermediate understanding of MERN stack and drive to learn new programming languages and development tools.

Skills

Programming Languages:

- HTML/CSS
- JavaScript
- PHP
- Python

Project Management:

- JIRA
- Monday
- Trello

Libraries/Databases:

- React JS
- React Bootstrap

- Node JS
- Express JS
- MongoDB

Other Skills:

- Strong Interpersonal and Communication Skills
- Analytical Thinking and Problem Solving
- Teamwork and Collaboration
- Agile/Scrum Methodology
- API Design and Development
- Continuous Integration and Continuous Delivery (CI/CD) practices
- Eagerness to Learn New Technologies
- Git

Experience

Redirect Health | Scottsdale, AZ

Junior Web Developer

02/2023 - Current

- Developed and maintained websites using HTML, CSS, JavaScript, and PHP.
- Created custom WordPress themes from scratch or modified existing ones.
- Built responsive designs that adapt seamlessly to various devices and screen sizes.
- Deployed sites onto hosting servers using FTP clients or version control systems.
- Assisted senior developers in troubleshooting complex programming challenges.

ANGI Homeservices

Junior Software Engineer

01/2022 - 12/2022

- Collaborated with cross-functional teams to translate design concepts and user stories into interactive and responsive web applications.
- Developed and implemented responsive user interface components for JavaScript applications using React concepts.
- Optimized components for maximum performance across a vast array of web-capable devices and browsers.
- Wrote and maintained unit and integration tests to improve software quality and reliability.
- Conducted full lifecycle software development from planning to deployment and maintenance.

Angie's List | Fairfax, VA
Quality Engineer
10/2019 - 12/2021

- Created, maintained and executed manual test cases for requirement validation, integration, regression and usability testing.
- Maintained automation test suite using Python and Selenium Web Driver.
- Wrote automation tests for backend APIs.
- Understood and adapted to changing system constraints and new requirements in order to ensure quality.
- Assisted development team during high pointed sprints by developing and implementing UI bug fixes.

mHelpDesk Inc. | Fairfax, VA
Senior Technical Support Specialist
01/2019 - 10/2019

- Leveraged tools, resources and company procedures to address and diagnose problems.
- Provided product assistance across departments by explaining system integrations and software functionalities to end-users via phone, email, or chat.
- Uncovered all product improvement requests from customers before escalating to product and engineering; assisted product team with feature changes and/or enhancements.
- Prioritized JIRA tickets entered into the system. This included but was not limited to testing, updating tickets as needed, informing customers of any changes, and collaborating with engineering and product on escalated issues within the software.

Education and Training

UMGC | Hyattsville, MD, USA
Some College (No Degree) in Computer Science
Expected in 05/2025

Northwestern High School | Hyattsville, MD, USA
HIGH SCHOOL DIPLOMA in MATHEMATICS
GPA: 3.8

Certifications

George Washington University College of Professional Studies, Full Stack Developer Certification, 2020
Udemy, The Complete MySQL Developer Course Certificate of Completion, September 2019
